VAIBHAV ITAURIYA

Final Year Undergraduate
Department of Mechanical Engineering
Indian Institute of Technology Kanpur

vaibhav-itauriya
vaibhav-itauriya
vaibhav23@iitk.ac.in

Examination	Degree/Certificate	Institute	Year	CPI/%
Graduation	B.Tech	Indian Institute of Technology Kanpur	2023-2027	7.4/10
Intermediate/+2	CBSE (XII)	The Gramodaya International College, Mauranipur	2023	91.4%
Matriculation	CBSE (X)	The Gramodaya International College, Mauranipur	2021	94.8%

SCHOLASTIC ACHIEVEMENTS

- Recipient of the **National Talent Search Examination (NTSE) Scholarship**, awarded by **NCERT, Government of India** in **2021**
- Completed **SURGE 2025** Research Internship at IIT Kanpur, selected among the **top 300** out of **3000+** applicants across India

WORK EXPERIENCE

Jaguar Land Rover (JLR TBSI), Bengaluru *May'26 - Jul'26*
Software Intern
*Won **1st Place** in the **JLR Global Hackathon** across **7+ countries***

- Built an **engineering lifecycle traceability platform** linking requirements, design, code and tests across **200+ repositories**
- Ran **cross-functional interviews** with developers, QA, architects and auditors to map the audit workflow and its key pain points
- Wrote **SQL on Amazon Redshift** measuring requirement-to-test coverage over **1M+ artifacts**, flagging compliance gaps by team
- Defined **compliance KPIs** with project advisors and analysts, powering **KPI dashboards** for release-readiness reviews by team
- Engineered a **data pipeline** (GitLab CI, Python, AWS Lambda) into Redshift, cutting each repository sync from **2 min to 5 sec**
- Automated traceability checks, turning a **3-week manual audit** into on-demand compliance insights for JLR's leadership team
- Drove adoption across **10 engineering teams** and **15+ projects**, scaling to **500K+ trace links** ahead of the company-wide rollout

PFA India, *Personal Finance Startup* *Jan'25 - Aug'25*
Product Management Intern
*Internship extended by **2 months** for showing **strong performance***

- Tracked the **acquisition-to-retention funnel** in GA4 and SQL across 5000+ visitors, raising the card conversion from **2% to 7%**
- Developed a **Python recommendation engine** ranking **25+ credit cards** on **150+ parameters** to match each user's spending
- Automated weekly fee and rewards data collection from **15+ banks** with Python and Selenium, scaling up **3 to 50+ pages/day**
- Ran **A/B tests**, 20+ interviews and 200+ surveys, driving **65% repeat usage**, ~23-min sessions and **8.4/10 CSAT** on card picks

ACHIEVEMENTS

- Secured **4th rank nationally** in Code & Compete at Techkriti'26 among **5,000+ participants** in Data Structures and Algorithms
- Ranked **254th** among **9,000+ participants** (**top 3%**) in the Goldman Sachs India Hackathon 2025, a national code contest
- **Top 10 nationally** in ZS Associates Campus Beats 2026, a medical GTM case competition, and secured a **Pre-Placement Interview**
- **Top 10 nationally** in KUKU FM's Project K NLP/RAG challenge

POSITION OF RESPONSIBILITY

Overall Placement Coordinator *Mar'26 - Present*
Students' Placement Office, IIT Kanpur

- Leading a **4-tier team of 250+ members** to plan and run internship and placement drives for **3000+ IIT Kanpur students**
- Managed a **10,000+ company database** with Excel pivot tables and trackers to monitor recruiter pipelines and student records
- Published the **Annual Placement Booklet**, turning sectoral trends and **PPO conversion rates** into insights for IITK students
- Contributed to **1300+ placement offers** and **600+ internship offers** during the 2025-26 hiring season as Assistant Coordinator

PROJECTS

Pacto: Agentic AI Accountability Agent *Aug'26 - Oct'26*
The Ken × Zerodha 2026, National Finalist (Top 7% of 6,000+ teams)

- Built an **agentic AI system** (GPT-4o-mini) where users stake money on goals, auto-verifying missed sessions via **39 MCP tools**
- Designed a **UPI Autopay state machine** (notice, debit, 3 retries, payout) with idempotent references and Pine Labs payment links
- Integrated **Gnani speech-to-text** for Hinglish voice notes, plus Google Calendar, Telegram and Gmail connectors as agent tools
- Tested **12 prompt versions** against **10 evaluation cases**, adding guardrails so money moves only after explicit user confirmation

Amazon ML Challenge 2026 *Sep'26*
Team Lead (4 members) | 72-hour national ML hackathon by Amazon

- Led the team building an end-to-end **ML entity-resolution pipeline** mapping noisy records onto **1.77M reference entities**
- Wrote **NLP preprocessing** (Indic transliteration, address normalization) and TF-IDF top-k blocking to shortlist candidates
- Engineered **75 pairwise features** (fuzzy matching, set overlaps) for a two-stage **LightGBM classifier** with isotonic recalibration
- Fine-tuned a **multilingual-e5 cross-encoder** (Hugging Face) to re-rank candidates, optimizing match thresholds for macro $F_{0.5}$
- Scored **0.9867 macro $F_{0.5}$** on the final leaderboard, ranking **384th among 25K+ teams** nationwide (**top 1.5%**) within just **72 hours**

Crickcast: Cricket Match Outcome Prediction *May'25 - Jul'25*
Product Club, IIT Kanpur | Mentored a 15-member team

- Created **30+ look-back features** (win %, head-to-head, top-3 strike rates, economy) spanning **948 historical match outcomes**
- Ranked features by win-rate analysis and tuned **XGBoost** with 5-fold cross-validated grid search across **8,640 configurations**
- Achieved **65% accuracy** with LightGBM against a **50% baseline**, outperforming XGBoost, with batting strike rate as the top driver

Inter IIT Tech Meet 13.0: Solar Waste Forecasting *Dec'24*
*Insolation Energy | Ranked **5th of 23 IITs** for IIT Kanpur*

- Projected solar panel waste with **Weibull failure distributions** across 2 scenarios, triangulated with the official MNRE forecasts
- Prioritized **3 recycling routes** (mechanical, chemical, bio) via cost-benefit analysis, estimating an **INR 44K/tonne** unit margin
- Designed a decentralized collection network using **geospatial analysis**, mapping stakeholders into a **five-year rollout roadmap**
- Estimated **6.01 million tonnes** of solar waste by 2040, above IRENA's projection, and proposed a national plan for **70+ plants**

Time Series Forecasting *May'24 - Jul'24*
Stamatics, Department of Mathematics & Statistics, IIT Kanpur

- Decomposed **13 years** of retail sales into trend, seasonality and residuals with ACF/PACF, visualized via interactive Plotly charts
- Forecast sales with **ARMA/ARIMA models** selected via AIC/BIC, reporting **95% confidence intervals** for out-of-sample forecasts
- Modeled volatility with **ARCH/GARCH** and backtesting, and built an **attention-based neural forecaster** for multivariate sales data

TECHNICAL SKILLS

- **Data & Analytics:** SQL, Python, Pandas, Excel, Power BI, GA4
- **Statistics:** Regression, Hypothesis Testing, A/B Testing, ARIMA
- **Machine Learning:** Scikit-learn, LightGBM, XGBoost, PyTorch
- **Cloud & GenAI:** AWS (Redshift, Lambda), Redis, Git, LLMs, RAG
